Save Time & Money

Automate your email marketing and in-app message campaigns, then access detailed reports on each campaign's performance to help you make profit-driven decisions.

Features Unlocked With TouchBistro Loyalty & Marketing

Put Customer Retention on Autopilot

Create digital spend and item-based loyalty programs alongside automated email and in-app campaigns – just set them and forget them.

Access Advanced Diner Data

Access detailed reporting on your rewards program and easily track promotion redemptions to get granular insights into what your diners want (maybe they love that free dessert promotion) and what they don't (your birthday offer might be missing the mark) so you can make profit-driven decisions.

Add a Personal Touch to Your Campaigns

Collect behavioral and transaction data from your guests, and use it to create targeted and personalized marketing campaigns.

Put Your Brand in the Palm of Every Guests' Hand

Give diners an easy way to interact with your restaurant with a custom-branded web app that lets guests subscribe to emails, leave feedback, receive messages, view promotions, track and redeem rewards, and more – all from their own device.
